(thank goodness for small mercies)

The President reports from Byron Bay (poor thing)

“ Late with his report as usual”

I write this from the beautiful beaches of Byron Bay. Well someone has got to keep the tourist trade going!

Chris Allen was our guest speaker last week on how “Ian Fleming Influenced my Writing.” It was interesting in that he gained inspiration from all the characters I enjoyed on TV as a kid- The Man from UNCLE, Lost in Space, Batman. I know I am not a writer as I gained most of my inspiration from the Addams Family.

We have a Board meeting next Tuesday so you are more than welcome to attend or add to the agenda. Issues on the agenda at the moment are Disbursement of funds from NYE and our community accounts, clarification of the Artis Mendenis trust fund, NYE wash-up, The Berry Show and others.

There is a vicious rumour going around that your President is not the only Model railway Nerd in the club.

I know your esteemed bulleting editor would like me to write something more deep and meaningful but staring out at the beach with a scotch in my hand I just cant think of anything else.

ALRIGHT FOR COME ISN'T IT!

RULE CHANGES IN EFFECT FOR GOLFERS AGE 60 Plus

Rule 1.a.5 - A ball sliced or hooked into the Rough shall be lifted and placed on the Fairway at a point equal to the distance it carried

or rolled into the Rough with no penalty. The senior player should not be penalized for tall grass which green keepers failed to mow.

Directions to: A Taste of Paradise Farm

Travelling North from Berry

- **As you pass Berry, you will travel approximately 11 km along the Princes Highway. Then take the “Donovan Road”, “Broughton Village”, and “Foxground” exit, on your left.**

At the bottom of the ramp turn right onto Austral Park Road. Turn left immediately after going under the bridge where you will see our sign “Riberry Lane”.

- **Please travel at an appropriate speed (20 kph) as you are driving through private property with a range of animals and people, living and working along the access road.**

- **The farm road winds down towards Broughton Creek after a left-hand hairpin bend (approx. 1 km) and then across a concrete causeway.**

- **You will then drive through 2 white posts marked “Raven Hill”. Follow the road around, then straight ahead. (Don’t take the road off to the left.)**

- **After the next cattle grid, turn right. “A Taste of Paradise Farm – Main Entrance” is fifty or so metres ahead. (Look for white flagpole next to “Organic Farm” sign).**

You will pass sheds on your left and chickens on the right and our Learning Activity Centre (Training Room) is just ahead. Please park just off the road.

Travelling South toward Berry

- After passing Gerringong you will travel approximately 4 km's.
- Take the “Toolijooa Road, Broughton Creek Village and Fox-ground” exit, on your left.
- Turn right onto Toolijooa Rd
- After 90 metres turn left onto Donovan Road
- Follow Donovan Road (the old Princes Highway) for approximately 10 minutes.
- Turn left onto Austral Park Road under the new highway bridge.
- Turn left straight after bridge, where you will see our sign “Riberry Lane”.
- **Please travel at an appropriate speed (20 kph) as you are driving through private property with a range of animals and people, living and working along the access road.**
- The farm road winds down towards Broughton Creek after a left-hand hairpin bend (approx. 1 km) and then across a concrete causeway.

PolioPlus and Global Polio Eradication

To be honest, PolioPlus Committee was not exactly thinking of ‘global polio eradication’ with the idea being born only in 1988. WHO has the world divided into six WHO regions — SE Asia, Western Pacific, Americas, African, European and Eastern Mediterranean. The Americas Region is administered by the Pan American Health Organisation, PAHO. No sooner than the PolioPlus Committee decided to give grants to countries proportional to the number of under-five children, PAHO made a decision, in 1985 itself, to eliminate polio in the Americas by 1990 and obtained a PolioPlus grant to kick start intensified polio immunisation for the polio elimination project.

Encouraged by the PAHO move and progress, WHO designed the concept of global polio eradication, and brought it to the World Health Assembly in 1988, where it was approved. The Assembly consists of Ministers of Health of all nations and a resolution passed in the Assembly is binding on all nations. WHO then received a grant from PolioPlus, to establish a unit in WHO headquarters to oversee the global polio eradication.

How satisfying is the popular sentiment — “No More Polio, Thank You, Rotary”. Today medical students are shown pictures of children with polio — real children getting infected by polio is a thing of the past.

What is the Plus in PolioPlus?

We all know that Global Polio Eradication was championed by the Rotary International. Rotary therefore became a member of the quartet partnership of the Global Polio Eradication Initiative — World Health Organisation (WHO), Rotary, Unicef and US Centres for Disease Control and Prevention (CDC) — a unique and unprecedented experience for Rotary.

Polio eradication, the largest and most ambitious global public health programme in history, is nearing completion: of the three types of natural (or wild) polio viruses, Type 2 was globally eradicated in 1999. Type 3 has not been seen anywhere since November 2012; probably that too has been eradicated but we must wait some more time to be sure. Type 1 continues to circulate in Pakistan and Afghanistan. India remains vulnerable to its import; to mitigate that risk we must sustain high population immunity. Hence Pulse Polio immunisation is continued in India even though we eliminated Type 1 way back in January 2011.

SQUIRRELS IN CHURCH

The Presbyterian church called a meeting to decide what to do about their squirrel infestation. After much prayer and consideration, they concluded they concluded the squirrels were predestined to be there and they shouldn't interfere with God's divine will.

At the Baptist church the squirrels had taken an interest in the baptistery. The deacons met and decided to put a water-slide on the baptistery and let the squirrels drown themselves. The squirrels liked the slide and, unfortunately, knew instinctively how to swim so twice as many squirrels showed up the following week.

The Methodist church decided that they were not in a position to harm any of God's creatures. So, they humanely trapped their squirrels and set them free near the Baptist Church. Two weeks later, after the Baptists had taken down their water-slide, the squirrels were back at the Methodist Church...

But the Catholic church came up with a very creative strategy! They baptized all the squirrels and made them members of the church. Now they only see them at Christmas and Easter.

Not much was heard from the Jewish synagogue; they took the first squirrel and circumcised him. They haven't seen a squirrel since.

RULE CHANGES IN EFFECT FOR GOLFERS AGED 60 Plus

9.k.34(a): If a tree is between the ball and the hole, and the tree is deemed to be younger than the player, then the ball can be moved without penalty. This is so because this is simply a question of timing; when the player was younger, the tree was not there so the player is being penalized because of his age.
