PRESIDENTS REPORT - 21st September.

The fantastic involvement of almost every member of our club at the Small Farm Field Days shows how committed we all are to Rotary's mantra of "Service Above Self".

All the events and activities that we run require committees who organize, prepare and manage them to ensure that they are as successful as they can be. In the last week there have been no less than four committee meetings.

On Tuesday morning Grahame Sweeney and three of the Rotary Nature Play Park Committee met with a representative of the NSW State Government to arrange the next step in expediting the promised \$4 million funding for the first stage.

On Tuesday night Haseena held her first Berry Christmas Parade Committee meeting. The date of the Rotary Street Parade has been set for 11th December and there is a lot of work to do.

On Wednesday night Paul Andersens Small Farm Field Day Committee held their post mortem meeting where this year's event was scrutinised to ensure that next year's event is as successful as this years.

On Thursday night Peter Stinson's New Year's Eve Fireworks Committee had their first meeting to develop their Event Plan for another of our biggest fund raising events.

Continued next page;

Throughout the year there will be many more meetings of our Activity and Event Committees.

Australia Day Breakfast, Berry Show Bar & Grill, all the Youth Programmes and The Celtic Festival. If you add to those the smaller activities that we undertake under Paul Andersen's Community portfolio then there are many things that we need to do.

The Club appreciates the commitment that the members give to the setup, gate rosters and clean up at all the events that we undertake but I invite every one of you to consider joining one of the Activity & Event Committees. Being on a Committee gives you the opportunity to make a difference on how our events are organised and to be a part of the future of our club.

Pres. Terry. PHF

Rotary Foundation receives highest rating from Charity Navigator for 12th consecutive year

For the 12th consecutive year, The Rotary Foundation has received the highest rating — four stars — from Charity Navigator, an independent evaluator of charities in the U.S.

The Foundation earned the recognition for demonstrating both strong financial health and commitment to accountability and transparency. Only one percent of the organizations Charity Navigator evaluates have received 12 consecutive 4-star evaluations.

"Attaining a 4-star rating verifies that The Rotary Foundation exceeds industry standards and outperforms most charities in your area of work", says Michael Thatcher, president and chief executive officer of Charity Navigator. "This exceptional designation sets the Foundation apart from its peers and demonstrates to the public its trustworthiness."

The rating reflects Charity Navigator's assessment of how the Foundation uses donations, sustains its programs and services, and practices good governance and openness.

Nigeria reaches crucial polio milestone

It's been three years since health officials last reported a case of polio caused by the wild poliovirus in Nigeria. The milestone, reached on 21 August, means that it's possible for the entire World Health Organization (WHO) African region to be certified wild poliovirus-free next year.

Nigeria's success is the result of several sustained efforts, including domestic and international financing, the commitment of thousands of health workers, and strategies to immunize children who previously couldn't be reached because of a lack of security in the country's northern states. "Rotary, its Global Polio Eradication Initiative partners, and the Nigerian government have strengthened immunization and disease detection systems. "We are now reaching more children than ever in some of the hardest-to-reach places in Nigeria."

"Rotarians have been hard at work raising awareness for polio eradication, advocating with the government, and addressing other basic health needs to complement polio eradication efforts, like providing clean water to vulnerable communities."

Nigeria is the last country in Africa where polio is endemic. Once Africa is certified as free of the wild poliovirus, five of the WHO's six regions will be free of wild polio. Polio remains endemic in Afghanistan and Pakistan, which means transmission of the virus has never been stopped.

One of our members (Guy) has come up with the suggestion of having a "Free to a good home" for any preloved or unwanted items – the new owner to make a donation to Polio. Please contact me with your ideas on this.

A tough old cowboy once counselled his grandson that if he wanted to live a long life, the secret was to sprinkle a pinch of gunpowder on his oatmeal every morning.

The grandson did this religiously and lived to the age of 110. He left 4 children, 20 grand-children, 30 great-grandchildren, 10 great-great-grand-children and a fifty-foot hole where the crematorium used to be. (It's old but I like it)
